

Welcome to The Steins

#4: PRAGMATISM: A NEW NAME FOR SOME OLD WAYS OF THINKING

William James gave this series of lectures in 1907. For him, reality is the back-and-forth between the self and the world, and truth is a belief successfully put to work. This summer, please come by and borrow our book. Some readers will make notes in the margins, so don't hesitate to do the same. But try to use pens of different colors.
